# 1.Scope

This Alipay+ MCC Standards, or “this Standards”, as referred to in this document, defines code values used in Alipay+ Services to enable the classification of Merchants into specific categories based on the type of business, trade, or services provided by the Merchant. This document also describes the update process for the creation, change and deletion of the Merchant Category Codes.

## 2.Normative references

*ISO 18245 Retail financial services - Merchant category codes* (or referred to in this Standards in short, ISO 18245) is referred to in the text in such a way that some or all of their content constitutes requirements of this Standards. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

## 3.Terms, definitions, and abbreviations

### 3.1 Terms and definitions

Term	Definition
Merchant Category Code	A four-digit number that describes a Merchant’s primary business activities.

**Table 1: Terms and definitions**

For all other proper nouns (capitalized terms) used in this Guide, refer to their respective definitions in Alipay+ Rules.

### 3.2 Abbreviations

Abbreviation	Meaning
MCC	Merchant Category Code

**Table 2: Abbreviations**

---

## 4. Conventions

In this Standards:

The key words “must” or “shall” or “need to” indicate a requirement which must be strictly followed and from which no deviation is permitted if conformance to this document is to be claimed.

The key word “should” indicates a requirement which is recommended but not absolutely required.

## 5. Merchant Category Codes Usage Rules

### 5.1 General principles

Merchant Category Code is a four-digit number that is assigned according to the business, services and products provided by a Merchant, which can be used to identify the classification of the Merchant. Based on MCC, Alipay+ and Partners can manage Merchants by categories for different purposes, such as risk control, transaction data, regulatory reports or pricing.

The Merchant Category Codes defined in this document, as listed in Annex A, conform to ISO 18245. Alipay+ may update the MCC list according to ISO 18245 standard updates or business needs. Alipay+ reserves the right to correct the improper assignment or use of an MCC.

### 5.2 MCC allocation by Acquiring Partners

Acquiring Partners need to assess their Merchants’ business activities and assign correct MCCs (as listed in Annex A) to the Merchants.

#### 5.2.1 Codes defined by ISO 18245

---

MCC values already defined in ISO 18245 can be found in Table A1 in Annex A. An Acquiring Partner shall first attempt to select an applicable MCC from this Table A1 to be assigned to any of its Merchants.

### **5.2.2 Codes defined by Alipay+ for private use**

Alipay+ also defines MCC values from the range reserved for private use in ISO 18245 to meet Alipay+ business requirements (as listed in Table A2 in Annex A). If an Acquiring Partner cannot find the applicable MCC from Table A1 for any of its Merchants, the Partner shall look for the correct MCC in Table A2 to be assigned to that Merchant.

### **5.2.3 Codes defined by other payment systems**

Alipay+ also supports the recognition of MCCs defined by other payment systems (as listed in Table A3 in Annex A) to facilitate operability. Merchants that have already implemented MCCs in this Table A3 before accepting Alipay+ may continue their business without changing MCC, while other Merchants must be assigned with MCCs from Table A1 (refer to the corresponding codes in “Recommended ISO 18245 Codes” column in Table A3), or Table A2 (if an applicable MCC cannot be found from Table A1).

## **5.3 MCC recognition by Mobile Payment Partners and Acquiring Partners**

All Mobile Payment Partners and Acquiring Partners need to recognize the MCCs in this Standards (including Table A1, Table A2, and Table A3) in transaction processing.

## **6. MCC update process**

If there is no appropriate code for a new Merchant or if some codes need to be modified or deleted, Partners can apply to Alipay+ for the creation, change or deletion of MCC. The update process is as follows:

(1) Partner fills out the form in Annex B and submits it to Alipay+;

- 
- (2) Alipay+ evaluates the application and makes a decision;
  - (3) Alipay+ notifies the Partner of the decision; and
  - (4) Alipay+ updates this standard document accordingly, and publishes and distributes updated versions to all Partners periodically.

## Annex A Merchant Category Codes list (Normative)

**Table A1 Codes defined by ISO 18245**

ISO Range	Codes	Description
0700-0999 Agricultural services	0742	Veterinary Services

## Change history

Version	Publication Date	Summary of Changes
1.0.0	July 2019	Initial release
1.1.0	April 2021	Terminology update
2.0.0	October 2021	<ol style="list-style-type: none"><li>1. Separated codes defined by Alipay+ and by other payment systems, to which different management principles apply.</li><li>2. Corrected definition in accordance with ISO 18245; deleted Alipay+- defined codes with no use cases; updated codes defined by other payment systems as they update.</li></ol>
2.1.0	April 2022	<ol style="list-style-type: none"><li>1. Clarified MCC allocation and recognition principles in Section 5: sequence of allocating is from Table A1 to Table A3; Acquiring Partners and Mobile Payment Partners shall recognize all the codes in three Tables.</li><li>2. Aligned level one category with ISO 18245 standard, and deleted level two category, which overlaps or conflicts with level one.</li><li>3. Aligned definition of Merchant Category Code with industry definition.</li></ol>
